EDUCATION

The University of Texas at Dallas

Bachelor of Science in Computer Science

May 2027

Richardson, TX

EXPERIENCE

Microsoft

Incoming Software Engineering Intern

May 2026 – Aug. 2026

Redmond, WA

Goldman Sachs

Software Engineering Intern

June 2025 – Aug. 2025

Dallas, TX

- Developed a **React** and **Redux** interface for portfolio exposure uploads while integrating new data pre-processing procedures based in a downstream pricing service reducing upload times by **80%** for **270 clients**.
- Built a **Python API microservice** to ingest and validate exposure-portfolio uploads for **10,000 users**.
- Designed a risk-reporting feature for the **TypeScript React** and **Redux** PnL attribution dashboard by implementing data-quality validations in **Vert.X RESTful Java microservices** backed by **Elasticsearch**.

Bell Textron

Software Engineering Intern

June 2024 – Aug. 2024

Arlington, TX

- Automated **10,000+** system requirement updates through an **Azure DevOps** work item management system to streamline project management processes by reducing manual data synchronization checks by **80%**
- Performed **20,000+** requirement comparisons between **DOORS** and **Azure DevOps** using **Python**, **Azure REST API**, **DXL**, and **WIQL** to synchronize requirements for **30+** embedded software teams.
- Built a **5-stage Azure CI/CD** workflow to deploy the management system and produce **PDF artifacts**.

Computer Vision and Multimodal Computing Lab

Research Assistant

Aug. 2024 – Nov. 2024

Richardson, TX

- Researched **diffusion-based audio generation models** incorporated with scalable interpolant transformers
- Tailored **700+** captions through interface developing accurate **text-audio annotations** for public dataset release

PROJECTS

Ingrediate | *React, TypeScript, Python, Flask, MongoDB, Auth0, Google Cloud API*

- Developed an interactive recipe generation platform utilizing a **1,000+** ingredient digital pantry using camera recognition to generate recommendations using **Spoonacular API** and **Google Cloud API** for translation
- Leveraged **Auth0** and **MongoDB** to record user preferences and favorite recipes through user accounts

Aerovista | *Python, PyTorch, OpenCV, Jupyter Notebook, Tello API, NumPy*

- Managed 5 person research team to utilize **Mask R-CNN** and **RTMDet-Ins-s** to enhance aerial drone search and rescue performance through fine tuning and data augmentation with a custom drone captured dataset
- Attained mAP scores of **0.48** for **Mask R-CNN** and **0.78** for **RTMDet**, each at an IoU of 0.50

LEADERSHIP

President

The Association for Computing Machinery

Jan. 2025 – Present

Richardson, TX

- Lead the largest computer science organization at UT Dallas with **800+ members**, 8 uniquely talented divisions, **3 consecutive international awards**, and **190+ officers** at the forefront of innovation and intellectual curiosity
- Supporting 4 semester-long programs with **200+ participants**, 8 industry sponsors, 18 executive board members, and **20+ large scale events** such as HackUTD: North America's Largest 24-Hour Hackathon

TECHNICAL SKILLS

Languages: Java, C++, Python, C#, TypeScript, HTML, CSS, JavaScript, C, Bash, SQL, LaTeX, PHP, Swift

Frameworks: React, Flask, PyTorch, Node.js, Next.js, Unity, Unreal, Tkinter, Tailwind

Developer Tools: Git, Docker, Kubernetes, XCode, Azure, VS Code, Visual Studio, Atom, Figma
